

Brain Awareness Week (15-21 martie 2010)

Creativitatea are efecte adverse...

Alexandra Constantinescu
Studenta, UMF "Carol Davila"

Brain Awareness Week (15-21 martie 2010)

Activitatea corticala la vederea culorilor – forme abstracte

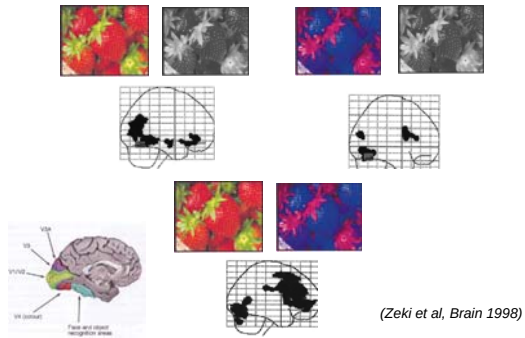

(Mondrian)

(Semir Zeki, *Inner Vision: An Exploration of Art and the Brain*, 1999)

Brain Awareness Week (15-21 martie 2010)

Activitatea corticala la vederea culorilor ca proprietati ale obiectelor

(Zeki et al, *Brain* 1998)

Brain Awareness Week (15-21 martie 2010)

Fauvismul – "eliberarea culorilor"

(Andre Derain, *Charing Cross Bridge*)

Brain Awareness Week (15-21 martie 2010)

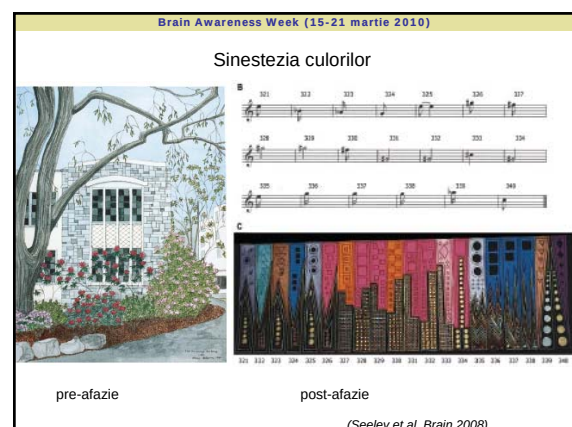

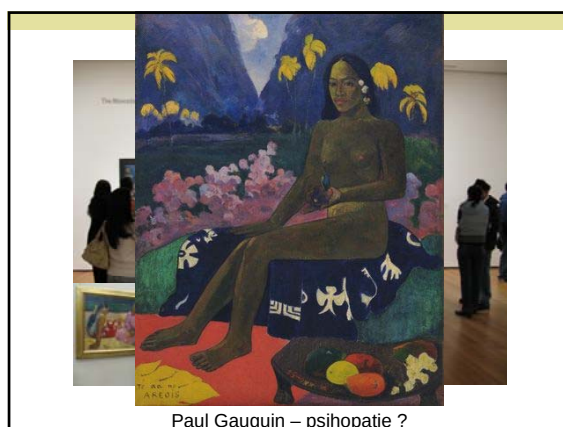

Artistii pot experimenta cu potentialul creierului uman vizual si pot dezvalui informatii despre organizarea lui

creativitatea

are efecte adverse....

Brain Awareness Week (15-21 martie 2010)

Brain Awareness Week (15-21 martie 2010)

Sargy Mann: "It seems that blindness has given me the freedom to use colour in ways that I would not have dared to when I could see"

Memoria... (Similitudine Beethoven)

Brain Awareness Week (15-21 martie 2010)

Explorarea mecanismelor cerebrale ale creativitatii prin arta...

Viitor: stimulare centrii corticali – stimulare creativitate?

Brain Awareness Week (15-21 martie 2010)

Va multumesc!
